

# 100

## Adjustable Wire Stripper & Cutter

- Strips and cuts insulated wire sizes up to #10 AWG (2.6mm)
- Effective for stripping fiber optic buffer jackets and tubing
- Stop screw adjusts easily to fit wire size
- All cutting surfaces are precision formed, hardened, tempered and ground assuring clean, smooth strips
- Soft plastic coated handles
- Length: 5.125 in (130.18mm) • Weight: 2.5 oz (71g)

# 101-S

## Adjustable Wire Stripper & Cutter with opening spring

- Strips and cuts insulated wire sizes up to #10 AWG (2.6mm)
- Spring mechanism opens tool permitting ease of operation in repetitive functions
- Stop screw adjusts easily to fit wire size
- All cutting surfaces are precision formed, hardened, tempered and ground assuring clean, smooth strips
- Closing lock feature
- Soft plastic coated handles
- Length: 5.125 in (130.18mm) • Weight: 2.5 oz (71g)

# 103-S

## Adjustable Wire Stripper & Cutter with cam adjustment

- Strips and cuts insulated wire sizes up to #10 AWG (2.6mm)
- Cam adjusts easily to fit wire size
- Pressure is against the cam not on the set screw
- Opening spring and closing lock feature
- Ideal for all applications
- All cutting surfaces are precision formed, hardened, tempered and ground assuring clean, smooth strips
- Soft plastic coated handles
- Length: 5.375 in (136.53mm) • Weight: 2.5 oz (71g)

# 60

## Utility Cutter

- Cuts stranded wire up to #12 AWG (2.3mm)
- Utility cutter for plastic, wire and other materials
- Perfect for plastic cuffs
- Spring mechanism opens tool permitting ease of operation in repetitive functions
- All cutting surfaces are precision formed, hardened, tempered and ground
- Closing lock feature
- Soft plastic coated handles
- Length: 5.375 in (136.53mm) • Weight: 2.5 oz (71g)
