

Introducing the new Wavetek Meterman XP Series Digital Multimeters

The new XP Series of compact multi-meters will replace the current XL compact multimeter line. As a result of the XP introduction, the XL meters are being obsoleted in early 2004.

Five existing meters (5XL, 10XL, 15XL, 16XL, 35XL) will be replaced by 3 new meters (5XP, 15XP, 35XP). The 5XP, 15XP, and 35XP were designed to easily cross to the older XL Series, but they all provide new design, features, and benefits with no increase in price. The XP Series is a unique product designed by and exclusive to Wavetek Meterman.

Customer positioning for the XP Series

Our promotional and merchandising materials will communicate this positioning for the XP meters:

- Highest quality compact multimeters under \$99
- Little brother to the XR Series
- Successor to the XL Series – same pricing with more features and performance
- High feature to price ratio with the features professionals ask for
- Innovation in a small package – VolTect™, Magne-Grip™

Features that differentiate the new XP Series from other digital multimeters under \$99:

- VolTect™ Non-Contact Voltage Detector**
 VolTect™ is built into every XP multimeter. VolTect allows the user to safely detect ac line voltages without contacting the circuit. A non-contact voltage sensor is integrated into the top surface of every XP multimeter. A front panel button activates the sensor – when the top of the meter is held near an active ac line, a beeper and LED are activated notifying the user of the presence of voltage.
- Magne-Grip™ Holster with Magnetic Hanging Strap**
 The Magne-Grip™ holster gives excellent protection to the unit against damage from drops, solvents, and harsh work conditions and also includes an integrated tilt bail for bench top use. The Magne-Grip's magnet can be used to attach the meter to any steel surface, allowing the user to use both hands to make measurements. Electricians, field service technicians and HVAC/R technicians have found this feature especially valuable.
- Triple Safety Rated**
 Wavetek Meterman, like its parent brand Fluke, has a large focus on customer safety. Each model of the XP Series is triple safety rated and designed to fully comply with safety standards. Each XP meter has full fusing on the current ranges and overvoltage protection. Each XP meter is triple safety rated to CAT I 1000 V, CAT II 600 V and CAT III 300 V. The units meet all CE requirements per IEC 61010 2d Edition and are also approved to the US-CSA-C standard (full equivalent of UL).
- Eye-catching clear plastic clamshell POP package to stimulate impulse sales.**

Below are the recommended customer positioning and brief specifications on the individual XP models;

New Model #	Description	Customer Positioning	Manufacturer's Suggested List Price
5XP	Manual Ranging 2000-count CAT III DMM with VolTect™ non-contact voltage detector, microamps and battery test	Basic mini-size meter for residential, auto, education and ResCom. Positioned to convert current 5XL and 10XL customers. Like the 5XL with the addition of VolTect™, Magne-Grip™ holster, higher voltage ranges, micro and milliamps, and battery test function at no increase in list price.	\$39.95
15XP	2000-count, autoranging CAT III DMM with VolTect™ non-contact voltage, AC/DC current, and logic test	Compact multimeter ideal for field service and electronic applications. The 15XP has a full equivalent feature set to the 15XL with the addition of Autoranging, VolTect™, and the Magne-Grip™ holster. Same list price as the 15XL.	\$59.95
35XP	4000-count autoranging CAT III DMM with temperature, VolTect™ non-contact voltage, frequency, microamps, AC/DC current and capacitance	Large features in a small package. Compact professional autoranging mini-DMM meets all the everyday needs of ResComm, HVAC and electronic customers. Particularly attractive to HVAC customer with the inclusion of Type K thermometer function. Positioning to convert existing 16XL and 35XL customers. Same list price as the 16XL (\$10 more than 35XL list price).	\$79.95

Distributor action items:

- Enter the product ordering information below into your computer system
- Place an initial stocking order of new XP Series meters
- Promote the new XP Series meters using the positioning statements in your catalogs, flyers, web site, etc.
- Phase out of older XL models

Features and Performance

5XP	15XP	35XP
Large digit 1999-count display with automatic polarity	2000-count auto ranging with range lock	4000-count auto ranging with range lock
1 % basic accuracy	0.5 % basic accuracy	0.5 % basic accuracy
750 V ac / 1000 V dc	750 V ac / 1000 V dc	750 V ac / 1000 V dc
200 mA ac/dc current	2 A ac/dc	2 A ac/dc
20 Meg Ω resistance	20 M Ω resistance	Diode test and continuity beeper
Data Hold and MIN/MAX	TTL logic test to 20 MHz	Frequency to 40 MHz
Continuity beeper	Extra tough Magne-Grip™ Holster with tilt bail and hanging strap	Extra tough Magne-Grip™ Holster with tilt bail and hanging strap
Extra tough Magne-Grip™ Holster with tilt bail and hanging strap	Integrated non-contact voltage (NCV) detector	Type K thermometer function
Integrated non-contact voltage (NCV) detector	0.1 mV ac/dc voltage resolution	Capacitance
1.5 V, 9 V battery test (with load for accurate reading)	0.1 mA ac/dc current resolution	Auto power off
One-year warranty	One-year warranty	One-year warranty

**Order the new XP meters now by faxing your PO to 425-446-5844.
For questions on orders, please call 1-800-752-5717.**

Model	Item #	UPC code	Description	Height	Width	Depth	Weight	Country of origin	U.S. Suggest List
