

Bench Adapter Assembly For Air-Powered Crimp Tool Instruction Sheet Order No. 19078-0307

Features

- Higher volume output with less operator fatigue
- Operates on standard shop air (85-95 PSI)
- Perfect for assembly line operations.

SCOPE

This bench adapter assembly 19078-0307 with foot switch is intended for use with the 19279-0001 (AT-200 Air-Powered Crimping Tool) and/ or with Electrical Control Box (Order No. 64001-4000).

OPERATION

When using the bench adapter assembly, be sure the base is securely fastened to a clean, sturdy workbench or table in a well-lighted area. Fasten the stand with (3) #1/4-20 FHCS, nuts, and washers not supplied of sufficient length for the work bench.

Figure 1

When using the bench adapter assembly remove the air hose (Order No. 19279-0140) from the crimp tool and connect the tubing from the footswitch. See Figure 1. If using the Optional Electrical Controls Order No. 64001-4000 see the Instruction Manual ATS-192790001 for additional information.
