SEMI-AURAL HEARING PROTECTORS - AN EARMUFF ALTERNATIVE

These semi-aural hearing protectors provide excellent hearing attenuation for those workers that need to frequently remove and refit their hearing protectors. Even short-term exposure to high-decibel work areas can cause permanent hearing damage, so it is important that all workers are prepared with hearing protection devices.

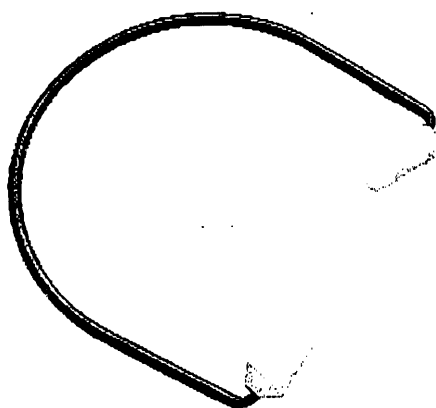

Features and benefits

Highest level of protection available in a semi-insert hearing protector	Dermatologically safe plugs are non-irritating
A comfortable, effective, lightweight alternative to earmuffs	Band for placing around neck helps prevent loss and is ideal for intermittent use
May be worn in three positions (over the head, under the chin and behind the head)	Lightweight dielectric plastic construction

Flex**SEMI-AURAL HEARING PROTECTORS - AN EARMUFF ALTERNATIVE****E-A-RCap
SNR 23dB**

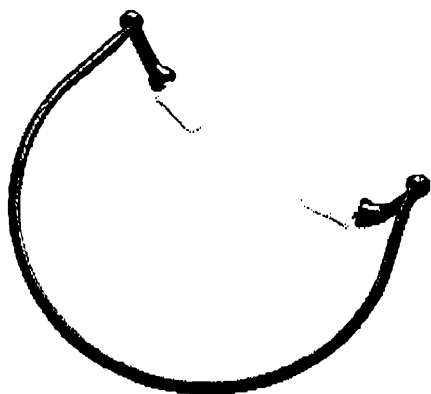

The world's most popular semi-aural. E-A-R Caps is one of the lightest semi-aurals, providing day long comfort for workers exposed to noise.

**E-A-R Caboflex
SNR 21dB**

This lightweight, semi-aural hearing protector is ideal for anyone moving in and out of noise areas. It can be carried comfortably around the neck when not in use. Each conical shaped insert swivels to align with the ear canal.

- Easy to use
- Lightweight
- Easily washed
- Durable
- Replacement pods available
- Tested to EN352-2

**E-A-R ReFlex** RF-01-000
SNR 26dB

ReFlex is a versatile, lightweight and comfortable alternative for ear muff wearers. Not only do they provide equal or higher protection than many ear muffs, they also feature pivoting headbands for multi positional wear. The open design helps keep the wearer cool in hot environments. The innovative patented headband allows the user tremendous flexibility in position, permitting easier use with other equipment

- Hinged headband
- Tapered E-A-RForm™ foam pods
- Easy Insertion
- Washable and replaceable pods
- Comfortable
- Tested to EN352-2
