捷多利, 专业PCB打样工厂, 24小时加急出货

5 026103 201828

Part No: RM-001-418

Pack contains

- 1 Remote mains plug in adaptors
- 1 Remote control hand set

Cables

Speed Rating

220-240V/AC 50/60

Frequency

Wireless transmission DTL license

Energy MP13201

Emissions compliance EN55022:1996

Immunity compliance IEC 802-1 and EN50082-1

Remote control: 12VDC battery operated.

WARNING

Operation with the cover removed can result in electric shock. Installation must be undertaken by qualified electricians only. No user serviceable parts inside. Operation of this product within a 50cm area may result in greatly reduced range. This product must be mounted within a suitable housing. It is the responsibility of the designer to ensure that all safety issues are adhered to in regards to compliance with the Low Voltage Directive.

Preparing to use the Wireless Remote Control Converter

- Remove the plastic tab protruding from the rear of the remote control before operating
- No internal setting up is required
- The Wireless Remote Control Converter is capable of switching 240 volts AC up to 5 amps via a single pole relay. Designers are advised to refer to relay markings.

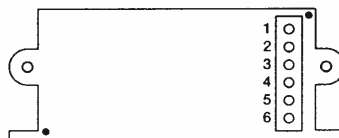

Features

- Radio remote control operates through walls and ceilings up to a range of 25 meters.
- Operates any mains product up to 5 amps max.
- No setting up is required.
- Factory pre-set site code
- 16 bit transmission code
