

MANUAL SWITCH BOXES

Combined PC Switches

This range of manual passive switch boxes are for use with PC and PS2 compatibles. They are passive units and do not provide any mouse or keyboard emulation. Further, there is no video amplification performed within the switch. Consequently any connecting cable lengths, particularly for the video signal, should be kept to a minimum.

For the more advanced range of automatic CPU controlling monitor, mouse and keyboard switches refer to the Master View™ section on pages 132 to 136.

STOCK NO. DESCRIPTION

VGA Monitor, PS2 Keyboard & Mouse

- 9945 2 to 1 15 HDD and 2 x Mini 6 pin DIN Skts
9946 4 to 1 15 HDD and 2 x Mini 6 pin DIN Skts

VGA Monitor, Serial Mouse, & PS2 Keyboard

- 9438 2 to 1 15 HDD, 9D Plgs & Mini 6 DIN Skts
9463 4 to 1 15 HDD, 9D Plgs & Mini 6 DIN Skts

VGA Monitor, Serial Mouse & PC Keyboard

- 9437 2 to 1 15 HDD, 9D Plgs & 5 Pin DIN Skts
9439 4 to 1 15 HDD, 9D Plgs & 5 Pin DIN Skts

VGA Monitor and PS2 Keyboard

- 9443 2 to 1 15 HDD and Mini 6 Pin DIN Skts
9444 4 to 1 15 HDD and Mini 6 Pin DIN Skts
9436 6 to 1 15 HDD and Mini 6 Pin DIN Skts

VGA Monitor and PC Keyboard

- 9451 2 to 1 15 HDD and 5 Pin DIN Skts
9452 4 to 1 15 HDD and 5 Pin DIN Skts
9434 6 to 1 15 HDD and 5 Pin DIN Skts

Monitor Switch Boxes

Both the 9 and 15 way High Density 'D' type boxes can be used for switching monitors on PC machines as all lines are switched.

Please note the units have no built-in video signal amplification and therefore the connected cable lengths should be kept to a minimum.

STOCK NO. DESCRIPTION

15 HDD type

- 9430 2 to 1 15 way High Density 'D' Sockets
9431 4 to 1 15 way High Density 'D' Sockets
9432 2 x 2 15 way High Density 'D' Sockets

9 D type

- 9400 2 to 1 9 way 'D' Sockets
9401 4 to 1 9 way 'D' Sockets

Mac Switch Boxes

The Macintosh switch boxes feature both the Mini 8 pin printer and 15 D type monitor outputs. The mini DIN box is supplied with the relevant Mac to switch box link cable. All pins are connected in a straight through configuration.

STOCK NO. DESCRIPTION

- 9440 2 to 1 Mini 8 DIN Sockets (inc 2m cable)
9441 4 to 1 Mini 8 DIN Sockets (inc 2m cable)
9410 2 to 1 15 way 'D' Sockets
9411 4 to 1 15 way 'D' Sockets

SCSI Switch Box

The SCSI switch box features SCSI I generation 50 way Centronics sockets. The unit switches pins 26 to 50 and is suitable for most applications.

STOCK NO. DESCRIPTION

- 9465 2 to 1 50 way Centronics Sockets
