

Continental Device India Limited

An ISO/TS16949 and ISO 9001 Certified Company

## NPN SILICON PLANAR TRANSISTOR

CMBT9014  
SOT-23

## PIN CONFIGURATION (NPN)

1 = BASE  
2 = EMITTER  
3 = COLLECTOR

MARKING: AS BELOW

## ABSOLUTE MAXIMUM RATINGS

| DESCRIPTION                                      | SYMBOL   | VALUE       | UNIT  |
|--------------------------------------------------|----------|-------------|-------|
| Collector -Base Voltage                          | VCBO     | 30          | V     |
| Collector -Emitter Voltage                       | VCEO     | 30          | V     |
| Emitter Base Voltage                             | VEBO     | 5.0         | V     |
| Collector Current                                | IC       | 100         | mA    |
| Collector Dissipation                            | PC       | 250         | mW    |
| Operating And Storage Junction Temperature Range | Tj, Tstg | -55 to +150 | deg C |

## ELECTRICAL CHARACTERISTICS (Ta=25 deg C Unless Otherwise Specified)

| DESCRIPTION                          | SYMBOL   | TEST CONDITION   | MIN | TYP | MAX  | UNIT |
|--------------------------------------|----------|------------------|-----|-----|------|------|
| Collector -Base Voltage              | VCBO     | IC=100uA, IE=0   | 30  | -   | -    | V    |
| Collector -Emitter Voltage           | VCEO     | IC=1mA, IB=0     | 30  | -   | -    | V    |
| Emitter Base Voltage                 | VEBO     | IE=100uA, IC=0   | 5.0 | -   | -    | V    |
| Collector Cut off Current            | ICBO     | VCB=30V, IE=0    | -   | -   | 15   | nA   |
| Emitter Cut off Current              | IEBO     | VEB=5V, IC=0     | -   | -   | 500  | nA   |
| DC Current Gain                      | hFE      | IC=1mA, VCE=5V   | 150 | -   | 1000 |      |
| Collector Emitter Saturation Voltage | VCE(Sat) | IC=100mA, IB=5mA | -   | -   | 0.60 | V    |
| Base Emitter Saturation Voltage      | VBE(Sat) | IC=100mA, IB=5mA | -   | -   | 1.2  | V    |

## Dynamic Characteristics

|                      |     |                              |     |   |     |     |
|----------------------|-----|------------------------------|-----|---|-----|-----|
| Transition Frequency | ft  | VCE=5V, IC=10mA,<br>f=100MHz | 125 | - | -   | MHz |
| Output Capacitance   | Cob | VCB=10V, f=1MHz              | -   | - | 3.5 | pF  |
| Noise Figure         | NF  | VCE=5V, IC=200uA<br>f=1kHz   | -   | - | 4.0 | dB  |

## CLASSIFICATION

## SOT-23 Formed SMD Package

## SOT-23 Package Reel Information Reel specifications for W" Packing (13" reel)

All dimensions in mm  
330 / 180 mm – Antistatic Coated Plastic Reel

### NOTES:

- | No. of Devices | 8mm Tape<br>Size of Reel<br>330 mm (13")<br>10,000 Pcs                                                                                                                                                                                                               | 8mm Tape<br>Size of Reel<br>180 mm (7")<br>3,000 Pcs |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|
| 1.             | The bandolier of 330 mm reel contains at least 10,000 devices.                                                                                                                                                                                                       |                                                      |
| 2.             | The bandolier of 180 mm reel contains at least 3,000 devices.                                                                                                                                                                                                        |                                                      |
| 3.             | No more than 0.5% missing devices / reel. 50 empty compartments for 330 mm reel. 15 empty compartments for 180 mm reel.                                                                                                                                              |                                                      |
| 4.             | Three consecutive empty places might be found provided this gap is followed by 6 consecutive devices.                                                                                                                                                                |                                                      |
| 5.             | The carrier tape (leader) starts with at least 75 empty positions (equivalent to 330 mm). In order to fix the carrier tape a self adhesive tape of 20 to 50 mm is applied. At the end of the bandolier at least 40 empty positions (equivalent to 160 mm) are there. |                                                      |

## Customer Notes

### Disclaimer

The product information and the selection guides facilitate selection of the CDIL's Discrete Semiconductor Device(s) best suited for application in your product(s) as per your requirement. It is recommended that you completely review our Data Sheet(s) so as to confirm that the Device(s) meet functionality parameters for your application. The information furnished on the CDIL Web Site/CD are believed to be accurate and reliable. CDIL however, does not assume responsibility for inaccuracies or incomplete information. Furthermore, CDIL does not assume liability whatsoever, arising out of the application or use of any CDIL product; neither does it convey any license under its patent rights nor rights of others. These products are not designed for use in life saving/support appliances or systems. CDIL customers selling these products (either as individual Discrete Semiconductor Devices or incorporated in their end products), in any life saving/support appliances or systems or applications do so at their own risk and CDIL will not be responsible for any damages resulting from such sale(s).

CDIL strives for continuous improvement and reserves the right to change the specifications of its products without prior notice.
