

High Performance and Computer Grade Point-of-Use Surge Protectors

The Sentrex High Performance Surge Protector Series and the Perma Power Computer Grade Surge Protector Series include a wide range of solutions for point-of-use surge protection applications. By dissipating and diverting excess voltage, Sentrex and Perma Power surge protection devices keep your critical systems functioning properly.

Electrical surges are present in every AC power system. They can penetrate a facility via AC, telephone, and communication lines, or on any other wires that enter a building. Surges and noise are also generated inside a building by fluorescent lighting, office machines, electric motors and HVAC equipment. Surges can strike once a month or hundreds of times a day, destroying data and damaging valuable hardware.

Sentrex High Performance Cord-Ended Surge Protectors provide maximum protection for advanced electronic equipment. They are an integral part of the Sentrex Zoned Approach to whole building protection. Perma Power Computer Grade units provide excellent point-of-use surge protection for personal computers, fax machines, home electronics and appliances.

Features & Benefits

- **All lines are protected.** Units provide surge and noise protection on all three modes (L-N, L-G, and N-G). Units also have thermal protection on all three lines.
- **330V UL1449 clamping level.** Outstanding protection against harmful surges.
- **EMI/RFI noise reduction.** Protects against data disruption due to electromagnetic or radio frequency interference.
- **Rugged construction.** Durable 2" x 1 3/4" [44mm x 51mm] aluminum housing. Some Perma Power units are available with an impact resistant plastic housing.
- **Aesthetically pleasing.** Putty white finish and putty white cord blend with any decor. Special Use units have a white finish and a white cord. M5S and M5BZ feature putty white housing with black outlets and a black cord.
- **Cord properly rated to load requirements.** 15A units have a 14/3 SJT cord and a NEMA 5-15P plug. 20A units have a 12/3 SJT cord and a NEMA 5-20P plug.
- **Lighted switch.** Most units have a lighted on/off switch to control power to the unit.
- **Protection indication.** All units have protection indication light(s) to show the status of the unit.
- **Resettable circuit breaker.** Provides overload protection.
- **Up to lifetime product warranty.** With connected equipment warranty up to \$30,000.
- **UL and cUL Listed.** All units are UL Listed and meet UL1449 2nd Edition standards. All units are cUL Listed or CSA Certified except as noted.

Sentrex High Performance Specifications

Surge Protection Circuitry	Patented 4 element, 4 stage hybrid circuit
UL1449 Clamping Level	330 Volts
Actual Clamping Level	280 Volts
Maximum Surge Current	33,000 Amps
Noise Reduction	60 dB
Response Time	Less than 1 nanosecond
Product Warranty	Lifetime
Connected Equipment Warranty	\$30,000
