- ▶ Connect up to 7 USB Peripherals
- ▶ Hi-Speed 480Mbps data transfer
- ▶ Backward compatible to USB 1.1
- ▶ Over-current protection safeguards connected equipment from overvoltages
- ▶ Included base stand for upright positioning

DESCRIPTION

Tripp Lite's ultra small 7-port USB 2.0 hub is the most versatile and powerful hub on the market. This USB 2.0 certified hub allows you to connect up to seven USB devices to a single USB port on a Notebook/PC/MAC. This hub has been certified by the USB-IF to support Hi-Speed data transmission rates up to 480Mbps. Perfect for both the mobile and desktop user. While the hub will function perfectly in virtually all cases without needing external power, a compact, multi-voltage AC adapter (110/220V) has been provided for the rare circumstance when connecting a power hungry device. This USB 2.0 device is backwards compatible so that it will function with both USB 2.0 devices as well as USB 1.1 peripherals. Over-current protection safeguards connected equipment from overvoltages. Includes stand for upright positioning. Tripp Lite offers a lifetime replacement warranty on all cable products.

KEY BUYING POINTS

- USB2.0 Certified Hub
- Supports all data transfer rates up to 480Mbps
- Features 7-ports to increase the number of available USB ports on a computer
- Compact design is ideal for use with a laptop/notebook computer
- Does not require external power, software, or complicated set-up procedures
- Plug-and-play / hot-swappable allows you to add or remove a device at any time
- Per-port overcurrent protection
- Bus-powered or self-powered
- Compact, multi-voltage power supply (110/220V) provided
- Compatible with Windows 98, Windows 98 SE, Windows 2000, Windows ME, Windows XP and Mac OS 8.6 or higher
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
