TECHNICAL DATA

Type	1454	1453
Symbol		
Nominal size (mm)	63	
Accuracy class	1.6 according to Din 16005	
Overrange protection	1.3 times full scale (temporary)	
Case	Stainless steel 1.4301 (304)	
Bezel	St. steel 1.4301 (304)	St. steel 1.4301 (304) polished
Window	Plexiglass	
Dial	Aluminium, white, scale & markings black according to Din 16109	
Pointer	Aluminium, black according to Din 16099	
Movement	Cu Zn (Brass)	
Wetted parts		
Measuring element		
≤40 Bar	Bourdon tube, copper alloy Helical tube, copper alloy *Helical tube, 1.4571 (s.s.316)	
≥60 Bar up to 400 Bar		
≥400 Bar		
Pressure connection	Cu Zn (Brass)	
Connection thread	G¼ A (¼" BSP) Din 16288	
Liquid filling	Glycerine: <2.5 Bar 86.5% ≥2.5 Bar 99.5%	
Temperature ranges		
- media	+80°C maximum -25°C to +60°C	
- ambient		
Weight approx (Kg)	0.21	0.26

DIMENSIONS

Type 1454

Type 1453

(Fitted with optional mounting bracket: 1370 054001)

All dimensions in mm

Other options are available including front flanges, triangular bezel and maximum marker pointers.
