300 Padbolt

Classification 1 2 3 4 **5** 6 7 8 9 10

ABUS 300 Padbolt series offers the best of both worlds. Used without a Padlock, the Padbolt is an independent security bolt for doors, gates etc.

When secured with an ABUS Padlock the 300 series offers a good level of security.

- ◆ Handy Security
- ◆ The innovative two piece keep-staple both protects the screw heads from attack and forms a solid anchor for the Padbolt.
- ◆ Hardened bolt
- ◆ Hidden screws
- ◆ Corrosion protected
- ◆ Can be used in conjunction with Padlocks up to 12mm shackle diameter

For use with ABUS Padlocks. Available in three sizes, the 300 Padbolt series is recommended for use with a wide range of ABUS Padlocks:-

300/100mm, 25-30mm. 300/120mm. 40-50mm. 300/140mm. 50-70mm and 60-80mm DISKUS.

Technical Specification	300-100	120	140
Length mm	100	120	140
Width mm	45	47	54
Staple/hole Diameter mm	11.5	11.5	11.5
